ANNEX

Identification number of the additive	Name of the holder of authorisation	Additive	Composition, chemical formula, description, analytical method	Species or category of animal	Maximum age	Minimum content	Maximum content	Other provisions	End of period of authorisation
						Units of activity/kg of complete feedingstuff with a moisture content of 12%			
Category of zootechnical additives. Functional group: digestibility enhancers									
4a27	BASF SE	6-phytase EC 3.1.3.26	**Additive composition** Preparation of 6-phytase, produced by *Aspergillus niger* (DSM 25770) with a minimum content of: Solid form: 5000 FTU[1] /g Liquid form: 5000 FTU/g ---------- **Characterisation of the active substance** 6-phytase produced by A*spergillus. niger* (DSM 25770) ---------- **Analytical method**[2] Colorimetric method measuring the inorganic phosphate released by the 6-phytase from phytate (EN ISO 30024)	Chickens for fattening Chickens reared for laying	-	125 FTU		1. In the directions for use of the additive and premixtures, the storage conditions and stability to heat treatment shall be indicated. 2. For users of the additive and premixtures, feed business operators shall establish operational procedures and organisational	28.2.2028
				Pigs for fattening Sows Minor porcine species for fattening or for reproduction		100 FTU			

[1] 1 FTU is the amount of enzyme which liberates 1 micromole of inorganic phosphate per minute from sodium phytate at pH 5.5 and 37 °C

[2] Details of the analytical methods are available at the following address of the Reference Laboratory: https://ec.europa.eu/jrc/en/eurl/feed-additives/evaluation-reports

				Turkeys for fattening Turkeys reared for breeding All avian species for fattening or growing or reared for laying Weaned piglets		125 FTU		measures to address potential risks their use. Where those risks cannot be eliminated or reduced to a minimum by such procedures and measures, the additive and premixtures shall be used with personal protective equipment, including breathing protection.
