

ANNEX

Identi- fication number of the additive	Name of the holder of authorisation	Additive	Composition, chemical formula, description, analytical method	Species or category of animal	Maxi- mum age	Minimum content	Maximum content	Other provisions	End of period of authorisa- tion
						mg/kg of complete feedingstuff with a moisture content of 12%			
Category of technological additives. Functional group: substances (micro-organisms) for the improvement of hygienic condition of feed (reduction of the contamination of Salmonella spp)									
1x01	-	Formaldehyde	Additive composition Preparation of formaldehyde ≥34% (liquid form) Methanol: max.15 %(v/v) Formic acid ≤0.05% (v/v) ----- Active substance Formaldehyde CH ₂ O CAS no 50-00-0 (chemical synthesis) ----- Analytical method ¹ For the determination of formaldehyde in the feed additive: titration according to ISO 2227-1972 or Eur. Ph. 6.0, method 01/2008:0826 For the determination of formaldehyde in premixtures and feedingstuffs: Reversed Phase High Performance Liquid	Chickens for fattening	-	200	600	1. The additive shall be incorporated in feed as premixture. 2. The additive shall only be used in feed where contamination by Salmonella spp. has been identified. 3. The application of the formaldehyde in feed shall be done by a close system, specifically built for formaldehyde, to provide the correct application of the additive and to minimise any emissions of liquid or gas into environment. 4. HACCP system under Regulation (EC) No 183/2005 shall be implemented to monitor	[to be completed by the Service responsible for the publica- tion: insert precise date 10 years from the date of entry into force of this Regulation]
				Laying hens		200	470		

¹ Details of the analytical methods are available at the following address of the Reference Laboratory: <https://ec.europa.eu/jrc/en/eurl/feed-additives/evaluation-reports>

			Chromatography coupled to Diode-Array detection (RP-HPLC-DAD).	Piglets Pigs for fattening		200	630	<p>the level of the formaldehyde emissions in the air.</p> <p>5. Protective measures shall be taken according to national regulations implementing EU legislation on health and safety at work including Directives 89/391/EEC, 89/656/EEC, 92/85/EEC, 98/24/EC and 2004/37/EC.</p> <p>6. For safety: breathing protection, eye protection, gloves and protective clothing shall be used during handling.</p> <p>7. A post market monitoring plan shall be put in place by the feed business operators to check any adverse effect of formaldehyde in human and animals</p>
