COMMISSION IMPLEMENTING REGULATION (EU) …/...

of XXX

correcting Implementing Regulation (EU) 2021/1410 concerning the authorisation of a preparation of *Bacillus licheniformis* DSM 28710 as a feed additive for laying hens, minor poultry species for laying, poultry species for breeding and ornamental birds (holder of authorisation Huvepharma NV)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition[1], and in particular Article 9(2) thereof,

Whereas:

(1) The use of a preparation of *Bacillus licheniformis* DSM 28710 as a feed additive was authorised for laying hens, minor poultry species for laying, poultry species for breeding and ornamental birds by Commission Implementing Regulation (EU) 2021/1410[2] for a 10-year period.

(2) In the Annex to Implementing Regulation (EU) 2021/1410, an incorrect identification of the species, for which the additive is authorised, which excluded turkeys for breeding, was inserted in the column 'Species or category of animal'.

(3) Implementing Regulation (EU) 2021/1410 should therefore be corrected accordingly. For the sake of clarity, it is appropriate to replace the whole Annex to that Implementing Regulation.

(4) In order to allow feed business operators to adapt the labelling of the additive and feed containing it to the corrected terms of authorisation, a transitional period should be provided for as regards the placing on the market of those products.

(5) In order to preserve the legitimate expectations of the interested parties in relation to the terms of the authorisation of the additive, this Regulation should enter into force as a matter of urgency.

(6) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

2 Commission Implementing Regulation (EU) 2021/1410 of 27 August 2021 concerning the authorisation of a preparation of *Bacillus licheniformis* DSM 28710 as a feed additive for laying hens, minor poultry species for laying, poultry species for breeding and ornamental birds (holder of authorisation Huvepharma NV) (OJ L 304, 30.8.2021, p. 8).

HAS ADOPTED THIS REGULATION:

Article 1

The Annex to Implementing Regulation (EU) 2021/1410 is replaced by the Annex to this Regulation.

Article 2

1. The preparation specified in the Annex and premixtures containing that substance, which are produced and labelled before [*OP please insert the date = 3 months after the date of entry into force of this Regulation*] in accordance with the rules applicable before [*the date of entry into force of this Regulation – Date to be inserted by the OP*] may continue to be placed on the market until the existing stocks are exhausted.
2. Feed materials and compound feed containing the preparation and premixtures referred to in paragraph 1 which are produced and labelled before [*OP please insert the date = 12 months after the date of entry into force of this Regulation*] in accordance with the rules applicable before [*the date of entry into force of this Regulation – Date to be inserted by the OP*] may continue to be placed on the market until the existing stocks are exhausted.

Article 3

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union.*

This Regulation shall be binding in its entirety and directly applicable in all Member States.
