COMMISSION IMPLEMENTING REGULATION (EU) .../...

of **XXX**

correcting Implementing Regulation (EU) 2025/1787 as regards the labelling of premixtures

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition¹, and in particular Article 9(2) thereof,

Whereas:

- (1) L-arginine produced with *Corynebacterium glutamicum* KCCM 80387 was authorised as a feed additive for all animal species by Commission Implementing Regulation (EU) 2025/1787² for 10 years.
- (2) In the Annex to Implementing Regulation (EU) 2025/1787, the third point of the table concerning the authorisation of L-arginine produced with *Corynebacterium glutamicum* KCCM 80387 in the category ‘sensory additives’, functional group ‘flavouring compounds’ erroneously requires that the recommended maximum content of the active substance is indicated on the label of the additive and premixture. The recommended maximum content of the active substance should be indicated only on the label of the additive. Implementing Regulation (EU) 2025/1787 should therefore be corrected accordingly.
- (3) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Correction to Implementing Regulation (EU) 2025/1787

In the Annex to Implementing Regulation (EU) 2025/1787, in the entry of the table concerning the authorisation of L-arginine produced with *Corynebacterium glutamicum* KCCM 80387 in the category ‘sensory additives’, functional group ‘flavouring compounds’, in the third point in the column ‘Other provisions’ the words ‘and premixture’ are deleted.

¹ OJ L 268, 18.10.2003, p. 29, ELI: <http://data.europa.eu/eli/reg/2003/1831/oj>.

² Commission Implementing Regulation (EU) 2025/1787 of 8 September 2025 concerning the authorisation of L-arginine produced with *Corynebacterium glutamicum* KCCM 80387 as a feed additive for all animal species (OJ L, 2025/1787, 9.9.2025, ELI: http://data.europa.eu/eli/reg_impl/2025/1787/oj).

Article 2
Entry into force

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Commission
The President
Ursula VON DER LEYEN
